

LOOK BEFORE YOU CLICK

twitter

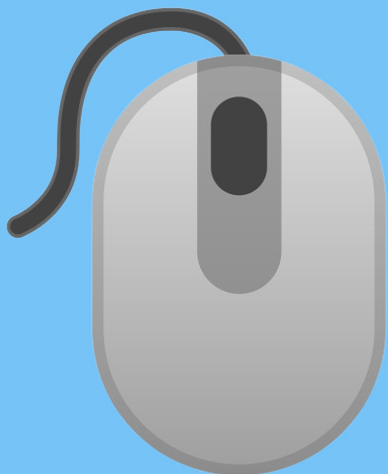

- Always verify the source!

Before clicking on links or opening attachments, ensure they come from trusted senders.

A moment of caution can save you from cyber threats!

#LookBeforeYouClick #CyberSafety

- Hover before you click! Take a second to check the URL of links before opening them. If it looks suspicious, don't click! Protect yourself from phishing scams.

#StaySafeOnline

- Think twice about downloads!

Only download files from reputable websites. Always scan downloads for viruses. Your safety is worth the extra step! #CyberAwareness

#LookBeforeYouClick

- Report suspicious activity! If you receive an email or link that raises red flags, report it to your IT department immediately.

Together, we can keep our workplace secure!
